**Operating Systems**  
Course Code: 1017020 Course Name: Operating Systems 7.5 Hp. DIST, FR, NAT Student Portal

**Today: Lab 1**

January 16, 2009

This page is created. It is currently under construction and will so be until the course starts in February 2009.  
We will use the 9:th edition of the book. However, the 7:th edition can also be used (it may be hard to find the 8:th edition since it has just been printed). The price at Bokus.se is about 500kr for the 7:th edition - you may also want to check adlibris.se.

**Step 1: fork()** Innihall - Operating systems spring 2009 (Ping Pong) - Microsoft Internet Explorer

**Submit your solutions and answers to questions in Ping Pong.**

**Step 1: fork()**

The file you hand in must be named Shell\_step\_1.java or step1.c

Answer the following questions in the below comment field:

- When you try to kill the zombies using the kill command - what happens and why?
- After you typed exit in your shell, try to see the zombies again...they are gone. What happened to them?

Deadline: 16 feb 2009 17:00  
Villalma filtypar: Java, c
