Workshop on current Biomed-IT projects in Uppsala

12:00-13:00 Lunch
13:00 HASTE: Hierarchical Analysis of Spatial and Temporal Data From intelligent data acquisition via smart data-management to confident prediction
Carolina Wählby and Andreas Hellander, Dept. of IT, UU

13:30 Health and Biodiversity in the Era of Data-Driven Research
Björn Nystedt, National Bioinformatics Infrastructure Sweden, NBIS

14:00 GE Software for Biopharmaceuticals
Key Hyckenberg, Staff Software Engineer, Life Sciences, GE Healthcare

14:30 Coffee break

15:00 Haptics-Assisted Cranio-Maxillofacial Surgery Planning using Interactive 3D Image Segmentation and Visualisation
Andreas Thor, Dept. of Surgical Sciences, UU and Ingela Nyström, Dept. of IT, UU

15:30 Next Generation Sequencing of Ancient DNA - Challenges and Opportunities
Torsten Günther, Dept. of Organismal Biology, UU

Deadline to register for lunch and fika: October 10
