Call for Papers

15th International Symposium on Practical Aspects of Declarative Languages

http://www.it.uu.se/conf/padl2013/
Rome, Italy, January 21-22, 2013
Co-located with ACM POPL 2013

Program Committee Chair
Kostis Sagonas (Uppsala Univ, Sweden; NTUA, Greece)

Program Committee Members
Elvira Albert (UCM, Spain)
Maria Garcia de la Banda (Monash Univ, Australia)
Adam Chipala (MIT, USA)
Bart Demoen (KU Leuven, Belgium)
Maurizio Gabbielli (Univ. Bologna, Italy)
Jurriaan Hage (Utrecht Univ, Netherlands)
Kevin Hammond (Univ. St. Andrews, UK)
Ralf Hinz (Univ. of Oxford, UK)
Jacob Howe (City Univ. London, UK)
Joxan Jaffar (NUS, Singapore)
Gabriele Keller (UNSW, Australia)
Naoki Kobayashi (Univ. Tokyo, Japan)
Kim Nguyen (Univ. Paris-Sud, France)
Norman Ramsey (Tufts Univ., USA)
Vitor Santos Costa (Univ. Porto, Portugal)
Olin Shivers (Northeastern Univ, USA)
Terrance Swift (UNL, Portugal; John Hopkins, USA)
Dimitrios Vytiniotis (Microsoft Research, UK)

Important Dates
Abstract Submission: September 10, 2012
Paper Submission: September 17, 2012
Notification: October 28, 2012
Camera-ready: November 12, 2012
Symposium: January 21-22, 2013

Conference Description
Declarative languages build on sound theoretical bases to provide attractive frameworks for application development. These languages have been successfully applied to many different real-world situations, ranging from database management to active networks to software engineering to decision support systems.

New developments in theory and implementation have opened up new application areas. At the same time, applications of declarative languages to novel problems raise numerous interesting research issues. Well-known questions include designing for scalability, language extensions for application deployment, and programming environments. Thus, applications drive the progress in the theory and implementation of declarative systems, and benefit from this progress as well.

PADL is a forum for researchers and practitioners to present original work emphasizing novel applications and implementation techniques for all forms of declarative concepts, including, functional, logic, constraints, etc. Topics of interest include, but are not limited to:

- Innovative applications of declarative languages
- Declarative domain-specific languages and applications
- Practical applications of theoretical results
- New language developments and their impact on applications
- Declarative languages and Software Engineering
- Evaluation of implementation techniques on practical applications
- Practical experiences and industrial applications
- Novel uses of declarative languages in the classroom
- Practical extensions such as constraint-based, probabilistic, and reactive languages.

PADL 2013 welcomes new ideas and approaches pertaining to applications and implementation of declarative languages. In this occasion PADL is co-located, as traditionally, with ACM POPL.

Submission Guidelines
Authors should submit an electronic copy of the full paper in PDF using the Springer LNCS format. The submission will be done through EasyChair conference system. If electronic submission is impossible, please contact the program chair for information on how to submit hard copies. All submissions must be original work written in English. Submissions must be unpublished and not submitted for publication elsewhere. Work that already appeared in unpublished or informally published workshops proceedings may be submitted. PADL 2013 will accept both technical and application papers. For more details please consult http://www.it.uu.se/conf/padl2013/.
