

# Table of Contents

Some improvements in symmetry elimination in not-equals binary constraint networks <i>Belaïd Benhamou and Mohamed Réda Saïdi</i>	1
Algebraic Structure Helps in Finding and Using Almost-Symmetries <i>Igor L. Markov</i>	8
Comparison of Symmetry Breaking Methods in Constraint Programming <i>Karen E. Petrie and Barbara M. Smith</i>	14
Breaking symmetries in symmetric matrices <i>Jean-Francois Puget</i>	22
Sets of Symmetry Breaking Constraints <i>Barbara M. Smith</i>	27
