

## SAC Activity Seminar:

# Japanese Ethics and Technology

*The purpose of this seminar is to create an inclusive forum for a cross-cultural exchange between scholars, students, and practitioners, who are interested in exploring the relevance of Japanese ethics for understanding ethical issues of technology. Particular focus will be on the effect of the Fukushima nuclear disaster on the thought about Japanese ethics and technology.*

### Invited speakers:

Takashi Majima, Senshu University  
Kevin Lam, University of Tokyo  
Ching-yuen Cheung, Chinese University of Hong Kong
